Cachet du vétérinaire agréé/
Stamp of veterinary surgeon: MARK CUBBERLEY
BVetMed CertEM(IntMed) MRCVS
ARDS EQUINE SURGERY
Tel: [illegible]70

Identification Procedures. The recommended procedure for identification is described in the F.E.I booklet "Identification of Horses"
The diagram and written description must agree and must be sufficiently detailed to ensure the positive identification of the animal in future. White markings must be shown in red and the written description **completed using black ink in block capitals or typescript**. If there are no markings, this fact must be stated in the written description. All head and neck whorls should be marked ("X") and described in detail. Other whorls should be similarly recorded in greys and in animals lacking sufficient other distinguishing marks. Acquired marks ("V") and other distinguishing marks e.g. prophet's thumb mark ("+"), wall eye etc, should always be noted.

PLEASE READ THE ATTACHED INSTRUCTIONS FOR FURTHER DETAIL BEFORE STARTING
